SUMMARY	
Passionate computer engineer with network engineering expertise, driven to apply technical skills and entrepreneurial spirit to solve real-world challenges. Keen on specializing in data science and cybersecurity. National computer science champion (2018) and CMU-Africa Bridge Program graduate. Demonstrated strong problem-solving, time management, and collaboration skills through academic projects, cybersecurity internship at the National Bank of Rwanda, IT support and extracurricular activities. Confident and excited to use expertise to contribute meaningfully to the field of information technology.	
EDUCATION	
BH5COE BSC (HONS) IN COMPUTER ENGINEERING University of Rwanda Specializations: Network Engineering	2019-2024
Advanced Level Ecole Secondary SANCTA MARIA KARAMBO Combination: Mathematics – Computer Science – Economics (MCE)	2016- 2018
PROFESSIONAL EXPERIENCE	
Cybersecurity Intern National Bank of Rwanda - I served as a Cybersecurity Intern who supports the Cybersecurity team in monitoring security events, conducting vulnerability assessments, and assisting with security policy development. - I participated in incident response and contributed to research on emerging threats and technologies. - I provided Cybersecurity awareness and IT support to the colleagues. - I took a Certified in Cybersecurity (CC) course	2023- 2023
Bridge Program student (6 weeks) Carnegie Mellon University Africa - I learned how to assemble robotic car - I worked on Firefighting robot use case - I learned how to make a good SOP, make a good presentation - I included intensive training to enhance proficiency in both academic and technical aspects, preparing me for success in advanced graduate studies within specified fields.	2023- 2023
The ICT Engineer Development Trainee (6 months) UR-ACEIoT, C.D.C. International Co. Ltd by JICA, under the Kobe-Kigali ICT Business Initiative, IoT and AI. - I learned Entrepreneurship courses - I gained Leadership skills - I learned Internet of Things (IoT) and Artificial Intelligence (AI) Technologies - I worked on an Early warning and Flood detection project - We implemented firefighting robot - I learned Python, Arduino and gained presentation skills	2023- 2023
Computer Science and ICT Contractual Teacher Mathematics Contractual Teacher Ecole Secondary Mukono EAR, Kigali Christian School, Maranyundo Girls School - I raised academic performance of Senior six students - I learned teaching and mentorship responsibilities	2020- 2021
	2019- 2022
	2024-Present

PROJECT	
Online Health Screening Platform University of Rwanda - Tools and Software: Html, CSS, JavaScript, PHP with Laravel Framework - I gained teamwork skills and making project report	2020- 2022
Firefighting robot (3 months) University of Rwanda (UR)-African Center of Excellence in Internet of Things (ACEIoT) - Tools and Software: Arduino, Flame sensors, - I learned how conduct research and bring the solution	2023- 2023
AI-DRIVEN Automation System for Firefighters (final year research project, In progress) University of Rwanda - Tools and Technology: Arduino, Flame sensors, Artificial Intelligence - I am learning to make a research, make report and learning python	2023- present
SKILLS & CERTIFICATIONS	
SKILLS - Network security: (intermediate) Firewall, Access lists - IT support - Information security: end points security, (intermediate) cryptography - Programming languages: Java, C++, JavaScript, C, Python, PHP, Arduino - Academic writing - Internet of Things (IoT) - Configure switches and end devices to provide access to local and remote network resources. - Configure a small network with security best practices - Explain how to optimize, monitor, and troubleshoot scalable network architectures. - Leadership - Teaching CERTIFICATES See them - The ICT Engineer development Training course - CMU-Africa Bridge Program graduate - Participation in round of the 7th Rwanda Sciences Competition at National Level - Certified in Cybersecurity course completion - Algorithmic Toolbox course completion - CISCO Networking Academy IT Essentials - CISCO Networking Academy CCNAv7: Introduction to Networks - CISCO Networking Academy CCNAv7: Enterprise Networking, Security, and Automation - CISCO Networking Academy Introduction to Cybersecurity - NSE 1 Network security Associate - Participation in Silk Roads (The virtual cross-cultural Initiative) - Introduction to Critical Infrastructure Protection (ICIP)	
INTERESTS & ACHIEVEMENTS	
- Won first place in Computer Science Competition at National Level (2018) - Team leader in AI, Internet of Things training for thriving ICT careers (6 months) - Class monitor in high school (2014-2015 and 2017-2018) - Team leader of Outgoing Global Volunteers (OGVs) in AIESEC (2020-2021) - Interested in fighting against cybercrimes and cyber-attacks - IT support - Interested in IT field
