

IT Essentials

The student has successfully achieved student level credential for completing IT Essentials course administered by the undersigned instructor. The student was able to proficiently:

- Select and install the appropriate computer components to build, repair, or upgrade personal computers.
- Demonstrate safe lab procedures.
- Appropriate use of tools to perform preventive maintenance and troubleshooting on personal computers.
- Perform installation, repair, maintenance, and troubleshooting of Windows operating systems.
- Explain the operation of local area networks and configure devices to connect to LANs and the Internet.
- Configure devices to connect to the Internet and Cloud services.
- Explain how to configure, repair, upgrade, maintain, and troubleshoot laptops and mobile devices.
- Explain how to configure, secure and troubleshoot mobile, OS X, and Linux operating systems.
- Install and share a printer to meet requirements.
- Implement basic host, data, and network security.
- Explain the roles and responsibilities of the IT professional.

CCNAv7: Introduction to Networks

The student has successfully achieved student level credential for completing CCNAv7: Introduction to Networks course administered by the undersigned instructor. The student was able to proficiently:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.

CCNAv7: Enterprise Networking, Security, and Automation

The student has successfully achieved student level credential for completing CCNAv7: Enterprise Networking, Security, and Automation course administered by the undersigned instructor. The student was able to proficiently:

- Configure single-area OSPFv2 in both point-to-point and multiaccess networks.
- Explain how to mitigate threats and enhance network security using access control lists and security best practices.
- Implement standard IPv4 ACLs to filter traffic and secure administrative access.
- Configure NAT services on the edge router to provide IPv4 address scalability.
- Explain techniques to provide address scalability and secure remote access for WANs.
- Explain how to optimize, monitor, and troubleshoot scalable network architectures.
- Explain how networking devices implement QoS.
- Implement protocols to manage the network.
- Explain how technologies such as virtualization, software defined networking, and automation affect evolving networks.

Certificate of Completion

This document certifies that

AHIMANA JEAN DE DIEU

has successfully completed

The ICT Engineer Development Training Course

provided by JICA under the Kobe-Kigali ICT Business Initiative ,Internet of things and Artificial intelligence from February 14th, 2023 to August 23rd, 2023 implemented by Kobe Institute of Computing (KIC) in partnership with University of Rwanda-African Center of Excellence in Internet of Things (ACEIoT) and C.D.C. International Co. Ltd.

Associate Professor HANYURWIMFURA Damien

Acting Director
ACEIoT

Kenji FUKUOKA

Managing Director
Kobe Institute of Computing

Carnegie Mellon University Africa

CERTIFICATE OF ACHIEVEMENT

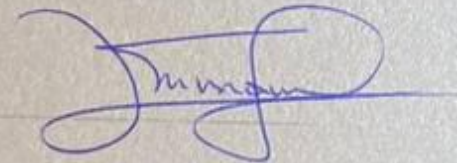

THIS CERTIFICATE IS PROUDLY PRESENTED TO

Jean de Dieu AHIMANA

For the completion of the graduate Bridge Program at Carnegie Mellon University Africa, 2023.

Director, CMU-Africa

Bridge Program Lead Coordinator

Certificate of participation

This is to certify that **AHIMANA JEAN DE DIEU** has participated in the round of the 7th Rwanda Sciences Competition at National Level organized by REB and NCST

Director General
Rwanda Education Board

On October 25, 2018

Executive secretary
NCST

INSPIRING A SAFE AND SECURE CYBER WORLD.

CERTIFICATE OF COURSE COMPLETION

This certificate signifies the completion of the CC training course. You are one step closer to obtaining your certification.

TRAINING CERTIFICATE

This is to certify that Mr./Ms. ATHIMANA Jean de Dieu has worked in the
Position of Manager, IT Governance
From Feb - 2023 To April 2023

During the training He/She was absent from duty for N/A days (reasons
communicated, if any). He/She was absent for the said period above with/without permission.

Please assign marks between 0 and 100 to each one of the items 1 through 5.
(Minimum overall average pass is 50% for successful completion of the training)

Item	Description	Marks (%)	
		In figures	In words
1	Skills obtained by the student during PT	87%	
2	Attitude towards practical work	80%	
3	Initiative and independence	90%	
4	Reliability	95%	
5	Punctuality (follow of official working time)	100%	

Any other remarks: ATHIMANA has demonstrated that he has ability to acquire any new skill set in a minimal amount of time as well as the ability to take any new challenges.

Diploma in Amazon Web Services

Amazon Web Services (AWS) is the leading cloud services organisation in the world and they have massive expansion planned for 2020 and beyond. Organizations are now actively looking for professionals who have knowledge of the AWS platform in order to advise them on moving towards the cloud.

Modules Studied

Module 1: Introduction to AWS Web Services

Module 2: AWS Cloud Basics

Module 3: AWS Storage and Databases

Module 4: Networking Components in AWS

Module 5: Diploma in Amazon Web Services - First Assessment

Module 6: High Availability Components of AWS

Module 7: Core DevOps

Module 8: Creating DevOps Pipeline

Module 9: Monitoring DevOps Pipeline

Module 10: Diploma in Amazon Web Services - Second Assessment

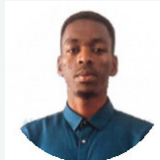

Module 11: Course assessment

Learner Achievement Verification

This is to certify that Alison has awarded AHIMANA Jean de Dieu living in Rwanda the certificate of completion in Cyber security: Understand Threats and Prevent Attacks.

Cyber security: Understand Threats and Prevent Attacks

Efforts to prevent and manage cyber risks have become a major focus of organisations and governments across the world due to the rising number of daily cyber attacks. Organisations of all sizes must ensure their cyber security and protect their information systems and valuable intellectual property from attack. Implementing effective organisational security measures not only offers liability protection but also increases the organisation's efficiency and productivity. C
